APP PORTFOLIO · DESIGNED & BUILT IN-HOUSE

HomeBrain

Your whole household, cataloged and protected.

A local-first iPhone app for cataloging household items, vehicles, documents, receipts, and warranties — with the reminders and recall alerts that protect them.

WHAT IT DOES

VIN & plate scanning
Point the camera at a VIN or license plate — verified and decoded on-device with Apple Vision, no cloud upload.

Private document vault
Titles, receipts, and warranties stored in protected local storage behind Face ID.

Insurance snapshot
One tap exports a complete, insurer-ready PDF inventory of everything you own.

Automatic recall checks
Vehicles checked against official NHTSA data; household products matched against CPSC recalls.

Maintenance reminders
Seasonal and mileage-based maintenance templates keep the house and cars on schedule.

UNDER THE HOOD

SwiftUI · iOS 17 · Apple Vision on-device OCR · NHTSA / CPSC public data · StoreKit

PRIVACY STANCE

Local-first: your data lives on your iPhone, not on our servers.

Want an app like this for your business?

We design and build native apps end to end — and we'll pressure-test your idea free.
