Another website we would really love to dig into but are keeping confidential because of conflicting interests.

So the results you're seeing on the results page show at least 2 Google Map rankings, in a major metropolitan area, and believe it or not, these results were all generated within 3 months of working together.

Our campaign turned to be highly beneficial and said client is still someone we're very happy to have had the pleasure of collaborating with.

This project has also stood the test of time, from beginning in 2018, and some on again off again work in 2019- overall our rankings and results have stuck well into 2020.

Hey Michael,

Looks good, what about when you search for electrician in [REDACTED] or another longer search term?

Thanks man, Looks good!

Working on that right now, I have a few tricks I'm doing right now to give your maps a push! They just take a bit to kick in. So today is some onsite work. 1-1

to me ▾

Awesome, thanks for the update!

Thanks for the update!

You're welcome!

Very cool!
